To be completed by „Austria Bio Garantie/agroVet“:

The scope manager must make an assessment of the information he has received to ensure that:

- a. the information about the customer and the product are sufficient for the implementation of the certification process;
- b. clarify any known differences in understanding between the certification body and the customer, including the agreement on standards or normative documents;
- c. the scope of the envisaged certification is specified;
- d. the means are available to carry out all evaluation activities;
- e. the certification body has the competence and ability to perform the certification activities
